

**Join us for this informative conference, which includes continental breakfast and luncheon.**

Alcohol is the most commonly used drug among youth in Palm Beach County. Binge drinking, which is defined as the consumption of five or more drinks in a row, is more prevalent than smoking among our youth. The consequences of underage drinking affect the entire community with antisocial behavior, failure in school, truancy, violence, and drunk driving.

The Underage Drinking Task Force is comprised of substance abuse treatment providers and representatives from healthcare, law enforcement, the judicial system, the School District, and mental health services.

Be a part of creating and activating solutions to increase awareness, enforcement, prevention, and treatment. Increase your knowledge of the problem and collaborate with like-minded professionals to develop a comprehensive plan for reducing underage drinking in South Florida. Solutions will address the issues as they relate to youth, higher education, parents, and community/business.

Learn about the problem of underage drinking and what is being done elsewhere in the country. Share your expertise and talents as we work together to come up with a comprehensive strategy of realistic and creative solutions.

Palm Beach Gardens, FL 33420-0427

**Underage Drinking:**  
*Gateway to Addiction*

“Communities Uniting for Solutions”

Palm Beach County  
Convention Center  
March 31, 2008  
8 a.m. - Midafternoon

**Palm Beach County youth rank in the top percentile in the state of Florida for abusing alcohol.**

In order to address underage drinking and bring solutions to the community, the Palm Beach County Substance Abuse Coalition, the members of the Underage Drinking Task Force and general coalition members are hosting a day-long 'Town Hall Meeting' on March 31, 2008 at the Palm Beach County Convention Center.

Kicking off Alcohol Awareness Month (April), the event will identify solutions. All are invited!

More than 400 substance abuse professionals, law enforcement authorities, politicians, judges, healthcare officials, and concerned citizens are expected to attend, and /or exhibit at the event.

Be sure to sign up early for this solution-focused forum that will educate participants about the high rate of underage alcohol abuse in South Florida.
